

ADDISON COUNTY

Economic Development Corporation
Great starts here.

Addison County Partners

Several years ago, ACEDC convened the “Addison County Development Cabinet,” consisting of Executive Directors from regional organizations involved in economic and community development, to collaborate and help coordinate on economic development issues impacting the region. When the COVID-19 Pandemic hit, the group added health care and other stakeholders and became the “Addison County Recovery Team,” to ensure collaboration on, and coordination of, the regional response to community needs during the Pandemic.

As we work to move beyond the pandemic to full recovery, the group has once again morphed into the Addison County Partners, maintaining the goal of collaborating among partners and coordinating activities in the region to better ensure efficiency and effectiveness.

Any local or regional organization or institution is welcome to join the meetings, which occur every other month on the third Wednesday at 10:00 a.m. To get added to the email notification list and meeting invite, contact Fred Kenney at fkenny@addisoncountyedc.org.

The current invitees are:

Julie Basol, Vergennes Partnership
Lindsey Berk, ACORN
