

The Makery at The Hannaford Career Center

The Makery is a member-based Makerspace collaborative for people to imagine, experiment, network, collaborate and create for personal and professional growth. It operates within the Adult Education Department of Hannaford Career Center, utilizing its building and equipment to encourage technical and creative entrepreneurship in Addison County.

The Makery currently operates from 5:00-9:00 pm on Thursdays with the Sewing, Woodworking, and Computer/3D Printing labs open.

Efforts are underway to add open days and times and add labs. If you are interested in utilizing The Makery, becoming a lab mentor, or making a donation, click [here](#).

ACEDC has served on the Steering Committee of The Makery since its inception and was an original donor.
