

Hong Kong and China and the Energy Renewable Market

As China's economy continues to grow, the demand for the latest innovations in the environmental protection industries is growing exponentially.

Please join a conversation on the opportunities and needs in China, one of the world's largest markets. Companies with expertise in Air & Water Quality, Eco-Friendly Products, Energy Efficiency & Clean Energy, Green Buildings, as well as Waste Management and Recycling may find export opportunities.

Mr. Anthony Mak, Director, Hong Kong Trade Development Council will speak on export opportunities as well as emerging trends in the market.

LOCATION: *Capitol Plaza Hotel, Montpelier Vermont
100 State St, Montpelier, VT 05602*

DATE: *Tuesday September 15, 2015*

TIME: *9:00am - 10:30am*

RSVP: *krista.conley@vermont.gov*

In addition, one on one conversations may be scheduled with Mr. Mak, if interested please kindly RSVP to krista.conley@vermont.gov.

We look forward to seeing you in September!
